

THERMOSTAT & IMMERSION HEATER SYSTEMS

ZEROSTART

HEATING PRODUCTS

TEMRO

HEATING PRODUCTS

System Includes:

- Engine Block Heater
- Thermostat
- Series Y-Cord
- Indicator Light

BENEFITS

- **Save Electrical Costs**
The thermostat measures the coolant temperature and regulates the engine heater by cycling the heater on and off according to the temperature range setting of the thermostat.
- **No Pre-Set Timer**
The thermostat regulates the engine heater eliminating need for pre-set timers.
- **Visual Confirmation**
The dual LED indicator light confirms voltage and heater operation at a glance. The single indicator light confirms voltage.

	Minneapolis	Boston	Kansas City
Electricity cost per truck with NO thermostat (12 hours per night)	\$373	\$592	\$314
Electricity cost per truck with thermostat	\$71	\$80	\$39
Annual Savings per Truck	\$302	\$513	\$275

Estimate: Based on 1500 W heater

Note: Savings will vary depending on engine size.
Charts are based on 2015 temperature data.

Select each of the following components to customize your solution.

THERMOSTAT

Part No.

3600058	3600068
3600066	3600057
3600073	3600096

ENGINE BLOCK HEATER

Model year application information is available at www.phillipsandtemro.com/applications

SERIES Y-CORD

Part No.

3600079	3600091
3600090	3600097
3600054	

INDICATOR LIGHT

Single Indicator Light

Part No.

3600101
3600099
3600098

Dual Indicator Light

Part No.

3600060
3600077
