

# CAB POWER®

**ZEROSTART®**  
HEATING PRODUCTS

THE CAB POWER® SYSTEM is a series of pre-wired, modular components for cabs and sleepers of over-the-road trucks and service vehicles. The system allows for "living room" electrical convenience without the need to keep the truck engine idling.

## BENEFITS

- Eliminates engine idling for electrical power generation reducing air and noise pollution
- Idling reduction results in fuel cost savings and less engine wear
- Quick and simple installation (less than two hours)
- Adaptable, modular design features quick connect wires, and unique mounting system
- System components are weatherproof, durable, and resistant to adverse over-the-road trucking conditions

## WHERE TO USE

- Factory installed or added as an aftermarket to all truck models

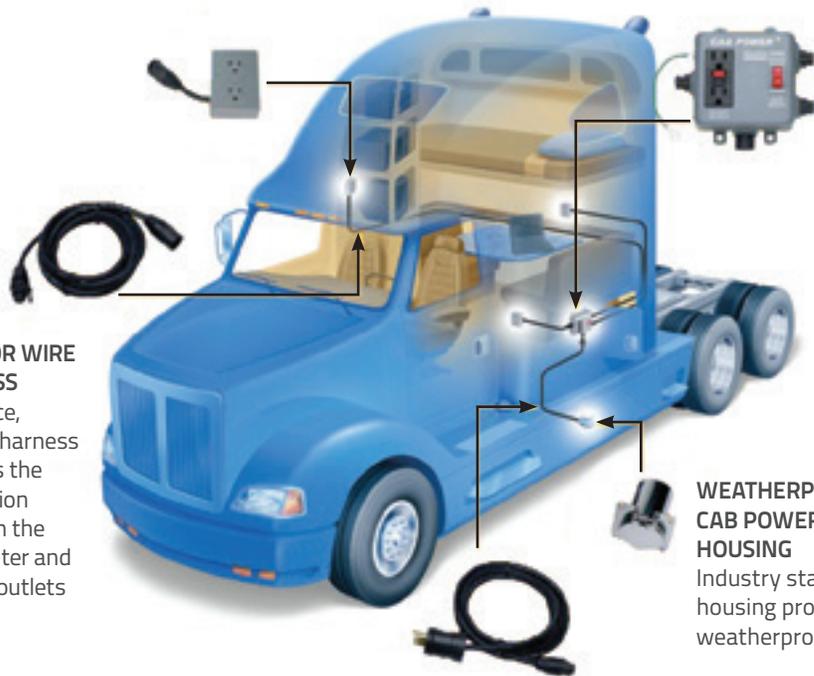

**SURFACE OR FLUSH MOUNT RECEPTACLE**  
Up to three 120 Volt AC outlets can be installed in the vehicle cab

**CAB POWER® LOAD CENTRE**  
Load Centre features three power outlet connectors, GFCI, 15A circuit breaker and open neutral protection

**INTERIOR WIRE HARNESS**  
One piece, molded harness provides the connection between the load center and interior outlets

**EXTERIOR WIRE HARNESS**  
One piece, molded harness provides connection between load center and land-based power

**WEATHERPROOF CAB POWER HOUSING**  
Industry standard housing provides weatherproof seal

## SYSTEM SPECIFICATIONS

- Connects directly to land-based power or interfaces with DC to AC inverters
- 1800 watt capacity
- GFCI (Ground Fault Circuit Interrupter), circuit breaker, and open neutral protection
- Approved to CSA standards

## CAB POWER ACCESSORIES

 <p><b>8500634</b> Surface Mount Interior Outlet</p>	 <p><b>8500641</b> 54" Interior Wire Harness (to outlet)</p>	 <p><b>8500635</b> Flush Mount Outlet/ Receptacle</p>
 <p><b>8500638</b> 96" Interior Wire Harness (to outlet)</p>	 <p><b>8500639</b> 163" Interior Wire Harness (to outlet)</p>	 <p><b>8500637</b> Weatherproof Housing</p>
 <p><b>8606048</b> Mounting Bracket For Weatherproof Housing</p>	 <p><b>8500632</b> Weatherproof Cable TV &amp; Telephone Connection</p>	 <p><b>8500640</b> 85" Exterior Wire Harness (to housing)</p>

NOTE: Please contact factory for information about DC to AC inverter interface kits.

### BASIC KIT INCLUDES:

- Load Center
- Weatherproof Housing
- Surface Mount Interior Outlet
- 54" Interior Wire Harness (to outlet)
- 85" Exterior Wire Harness (to housing)
- Grommet
- Fastener Kit
