# ENGINE BLOCK HEATERS – 4 TYPES

## FREEZE PLUG (V-LOCK)

Fits directly into a frost plug port

- Plated stamped steel & forged brass adapters
- Copper heating element for maximum life and efficiency
- V-LOC™ locking system provides quick, secure installation

## THREADED

Plated steel threaded adapter with copper element.  
Threads directly into the engine block.

## PLATE/BOLT-ON

Plate mounts to engine block with copper heating element.

- Plated steel adapter and plate
- Copper heating element maximizes heat transfer

## CARTRIDGE

Heater is placed directly into a dry cavity of the engine block.  
Quick installation – no need to drain the engine coolant.
