

ENVIRONMENTAL POLICY

Truflo Air Movement Limited The nature and purpose of our business is the design and manufacture of engine cooling fans. We are a UK based business, medium sized with a scale of 7400m2.

Truflo focuses on the management of air, water, chemical, waste and other applicable environmental aspects associated with our business activities, products and services.

Truflo strives to minimize the health and safety risks to our employees, customers and the communities in which we operate.

The following Environmental Policy is in accordance with our corporate owners, Phillips & Temro Industries Ltd (PTI).

Truflo is committed to:

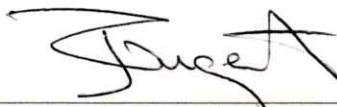

- ◆ Continually improve the Environmental Management System throughout our operations in order to enhance environmental performance.
- ◆ Protect our community from adverse environmental impacts.
- ◆ Prevent pollution and conserve natural resources.
- ◆ Encourage involvement by all employees.
- ◆ Incorporate environmental factors into all designs and operations.
- ◆ Comply with applicable legal compliance obligations, regulations, customer or other requirements, which relate to the environmental aspects.

Truflo sets up appropriate objectives and targets, based on environmental aspects and delegates appropriate personnel to measure and monitor these objectives and targets. The Environmental Team are responsible to review these periodically and report to top Management in a timely manner.

Truflo will communicate this Environmental Policy to all our employees, including persons working on behalf of Truflo and ensure appropriate training is given to help raise awareness of any environmental issues.

This policy will be made available upon request and via our company website, to the public and other interested parties.

All employees of Truflo Air Movement Limited have the responsibility to comply with this Environmental Policy and related instructions.
